

a FIA modeled (HTCD 4) height vs our model

b Excess: (a) minus the model's own bias here

Only divisions with 1,000+ HTCD 4 trees are colored: these six, all inside CA/OR/WA, hold 99.1% of all HTCD 4 trees nationally. Outside these states HTCD 4 is a handful of scattered records per state (Fig. 3) and is not mapped.
